**Congressional Junket to the Green state of publicity. has sustained other setbacks. The War Department has advised members of the House and Benate who contemplate going that the cost of substatence while on beard the transport will be increased from \$1.25 to \$1.75 per day. This blow was too much for some of the frugal ones, who seemed to think that the expense is being run up to where it will cost nearly as much to as a congression of the state of the frugal ones, who seemed to think that the expense is being run up to where it will cost nearly as much to where it is a fail to the interest of the first as \$2.20 to \$2. where it will cost nearly as much to go as to stay at home. Those who feel

China and other places has brought an avalanche of requests from constituents who want to accompany their Con resemen. Naturally, most of these requests are coming from en of influence in their districtsse of them real political bosses. When the matter was broached to Secretary of War Baker, he at once eat down on the proposition of alowing the members to take not only their families but their friends and political henchmon. Rather than dis-appoint their heekers, some of the members have displayed a self-enc-siding spirit and determined to siny

rifleing spirit and determined to stay at home themselves.

Quite a few have cancelled their requests for accommodations. Representative Randall of California, who its credited with originating the idea for an Oriental trip, won't iell how many members have changed their mines or supply the names of those who are going. The trip may not be quite so enjoyable on a small transport as on the palatial Mount Vernon, which it was understood would be available. The War Department has notified the junktoteers that the Mount Vernon must be used in other services notified the junketeers that the Mount Vernon must be used in other spryice and that the Great Northern, which has first cabin accommodations for call 186, will be supplied instead. This will hold the number within bounds. Representative Randall invited some of the Washington correspondents to go, but within the past few days it has been announced that it will not be possible to take any of the newspaper see.

Some effort is being made now to feature Prince Kalaniansole, the Harvalian Deiegrate, as the host of the party, since it has been described as a party as originally planned is now certain. None of the Congressmen paid.

Some effort is being made now to feature Prince Kalanianacle, the Hawalian Delegata, as the host of the party, since it has been described as a junket. That it wen't be so large a party as originally planned is now certain. None of the Congressmen will admit that the cancellations are thus to the laurence in price of four bits a day.

DHAR COUBINS O'MINE: You called "Cluck, cluck" (which meant must know, even before reading it, just what this letter is to be about. It is to be about Mother's Day. This typically American day comes around again to morrow and we must begin to think about what nice thing we are going to do for mother to colebrate this, her own any other chicken in this farmyard. I with a bouquet of carnations or a hug and a kies? Perhaps you are far apart from mother and a letter will have to carry the greeting. No matter which way you take, be sure that mother will understand. That is not a new thing to say shout mother. In fact, there is little that we have to may that is new. Mother always has been, is, and always will be the very best friend a body may have, and though folks sometimes forget to show that they know it, still they realize it just the same. All day long there is a certain secure feeling way down deep in you, a feeling that there is always the kind. ing that there is always the kind, laving, generous somebody called mother to go to when things go wrong, and to be glad with when things go right. That's the way people who have mothers feel.
